

# Scoring Your PSAT/NMSQT Practice Test #1

Congratulations on completing a PSAT/NMSQT® practice test. To score your test, follow the instructions in this guide.

## Scores Overview

Each assessment in the SAT Suite (SAT®, PSAT/NMSQT, PSAT™ 10, and PSAT™ 8/9) reports test scores and cross-test scores on a common scale.

The assessments also report subscores, which provide more information to students, educators, and parents. For more details about scores, visit [collegereadiness.collegeboard.org](http://collegereadiness.collegeboard.org).

The NMSC Selection Index score is used by National Merit Scholarship Corporation (NMSC) as an initial screen of students who enter the National Merit® Scholarship Program. The Selection Index scores of all students who meet entry requirements will be considered for program recognition. See the *PSAT/NMSQT Student Guide* for more information about the National Merit Scholarship Program.

The College Board Assessment Design & Development team wrote the practice test using the same processes and standards they use when writing the actual PSAT/NMSQT. Everything from the way questions are written to how they look on the page accurately reflects what you'll see on test day.

<b>1 Total Score</b> 320–1520 Scale	<b>Total Score</b>

# How to Calculate Your Practice Test Scores and Selection Index Score

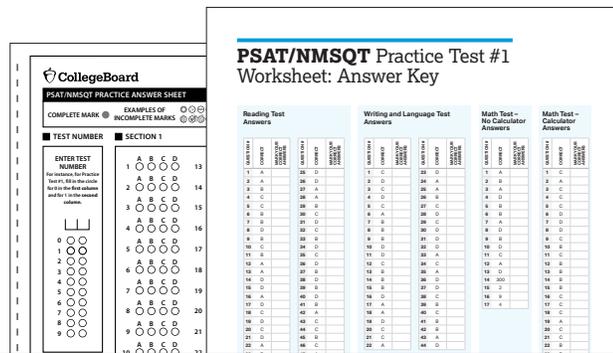

## GET SET UP

- 1 You'll need the answer sheet that you bubbled in while taking the practice test. You'll also need the conversion tables and answer key at the end of this guide.

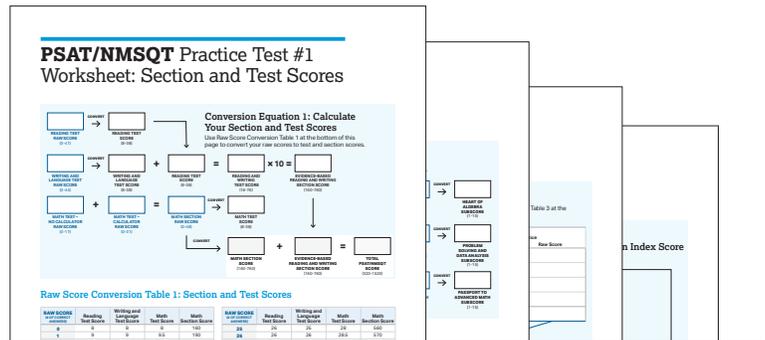

## SCORE YOUR PRACTICE TEST

- 2 Using the answer key on page 8, count your total correct answers for each section. Write the number of correct answers for each section in the answer key at the bottom of that section.

## CALCULATE YOUR SCORES

- 3 Using your marked-up answer key and the conversion tables, follow the directions on pages 3–7 to get all of your scores.

# Get Section, Test, and Total Scores

Your total score on the PSAT/NMSQT practice test is the sum of your Evidence-Based Reading and Writing Section score and your Math Section score. To get your total score, you'll convert what we call the "raw score" for each section—the number of questions you got right in that section—into the "scaled score" for that section and then calculate the total score.

## GET YOUR EVIDENCE-BASED READING AND WRITING SECTION SCORE

Calculate your PSAT/NMSQT Evidence-Based Reading and Writing Section score (it's on a scale of 160–760) by first determining your Reading Test score and your Writing and Language Test score. Here's how:

- Using the answer key on page 8, count the number of correct answers you got on Section 1 (the Reading Test). The number of correct answers is your raw score.
- Go to Raw Score Conversion Table 1: Section and Test Scores on page 9. Find your raw score in the "Raw Score" column and match it to the number in the "Reading Test Score" column.
- Do the same with Section 2 to determine your Writing and Language Test score.
- Add your Reading Test score to your Writing and Language Test score.
- Multiply that number by 10. This is your Evidence-Based Reading and Writing Section score.

**EXAMPLE:** Jennifer answered 29 of the 47 questions correctly on the PSAT/NMSQT Reading Test and 20 of the 44 questions correctly on the PSAT/NMSQT Writing and Language Test. Using the table on page 9, she calculates that she received a PSAT/NMSQT Reading Test score of 28 and a PSAT/NMSQT Writing and Language Test score of 22. She adds 28 to 22 (gets 50) and then multiplies by 10 to determine her PSAT/NMSQT Evidence-Based Reading and Writing Section score is 500.

## GET YOUR MATH SECTION SCORE

Calculate your PSAT/NMSQT Math Section score (it's on a scale of 160–760).

- Using the answer key on page 8, count the number of correct answers you got on Section 3 (Math Test – No Calculator) and Section 4 (Math Test – Calculator).
- Add the number of correct answers you got on Section 3 (Math Test – No Calculator) and Section 4 (Math Test – Calculator).
- Use Raw Score Conversion Table 1 to turn your raw score into your Math Test and Math Section score. (Your Math Section score is your Math Test score multiplied by 20.)

## GET YOUR TOTAL SCORE

Add your Evidence-Based Reading and Writing Section score to your Math Section score. The result is your total score (on a scale of 320–1520) on the PSAT/NMSQT Practice Test.

Total Score	Total Score		
	Evidence-Based Reading and Writing		Math
Section Score			
Test Scores	Reading	Writing and Language	Math
	Analysis in History/Social Studies		
	Analysis in Science		
	Command of Evidence	Heart of Algebra	
	Words in Context	Problem Solving and Data Analysis	
	Expression of Ideas	Passport to Advanced Math	
	Standard English Conventions		
	NMSC Selection Index		

**Your total score on the PSAT/NMSQT practice test is the sum of your Evidence-Based Reading and Writing Section score and your Math Section score.**

 Use worksheet pages 8 and 9 to calculate your section, test, and total scores.

# Get Subscores

Subscores provide more detailed information about your strengths in specific areas within literacy and math. They are reported on a scale of 1–15.

## COMMAND OF EVIDENCE

The Command of Evidence subscore is based on questions from both the Reading Test and the Writing and Language Test that ask you to interpret and use evidence found in a wide range of passages and informational graphics, such as graphs, tables, and charts.

- 1 Add up your total correct answers from the following questions:
  - Reading Test: Questions 8; 17-18; 22; 26-28; 36; 39; 42
  - Writing and Language Test: Questions 6-7; 15-16; 18; 27; 33-34

Your raw score is your total correct answers from all of these questions.

- 2 Use Raw Score Conversion Table 2: Subscores on page 10 to determine your Command of Evidence subscore.

## WORDS IN CONTEXT

The Words in Context subscore is based on questions from both the Reading Test and the Writing and Language Test that address word/phrase meaning in context and rhetorical word choice.

- 1 Add up your total correct answers from the following questions:
  - Reading Test: Questions 5-6; 10; 13; 23-24; 34; 37; 40; 43
  - Writing and Language Test: Questions 1-2; 17; 19; 28; 30; 36; 39

Your raw score is your total correct answers from all of these questions.

- 2 Use Raw Score Conversion Table 2 to determine your Words in Context subscore.

## EXPRESSION OF IDEAS

The Expression of Ideas subscore is based on questions from the Writing and Language Test that focus on topic development, organization, and rhetorically effective use of language.

- 1 Add up your total correct answers from the following set of questions:
  - Writing and Language Test: Questions 1-2; 5-7; 11; 15-19; 22; 25; 27-28; 30; 32-36; 39-40; 44

Your raw score is your total correct answers from all of these questions.

- 2 Use Raw Score Conversion Table 2 to determine your Expression of Ideas subscore.

**Subscores provide more detailed information about your strengths in specific areas within literacy and math.**

Use worksheet pages 8 and 10 to calculate your subscores.

## STANDARD ENGLISH CONVENTIONS

The Standard English Conventions subscore is based on questions from the Writing and Language Test that focus on sentence structure, usage, and punctuation.

- 1 Add up your total correct answers from the following questions:
  - Writing and Language Test: Questions 3-4; 8-10; 12-14; 20-21; 23-24; 26; 29; 31; 37-38; 41-43

Your raw score is your total correct answers from all of these questions.

- 2 Use Raw Score Conversion Table 2 to determine your Standard English Conventions subscore.

## HEART OF ALGEBRA

The Heart of Algebra subscore is based on questions from the Math Test that focus on linear equations and inequalities.

- 1 Add up your total correct answers from the following questions:
  - Math Test – No Calculator: Questions 1; 3; 5; 7-9; 14-15
  - Math Test – Calculator: Questions 1-2; 5; 8; 11; 24; 27; 29

Your raw score is your total correct answers from all of these questions.

- 2 Use Raw Score Conversion Table 2 to determine your Heart of Algebra subscore.

## PROBLEM SOLVING AND DATA ANALYSIS

The Problem Solving and Data Analysis subscore is based on questions from the Math Test that focus on quantitative reasoning, the interpretation and synthesis of data, and solving problems in rich and varied contexts.

- 1 Add up your total correct answers from the following questions:
  - Math Test – Calculator: Questions 3; 6-7; 9-10; 12-17; 19-23

Your raw score is your total correct answers from all of these questions.

- 2 Use Raw Score Conversion Table 2 to determine your Problem Solving and Data Analysis subscore.

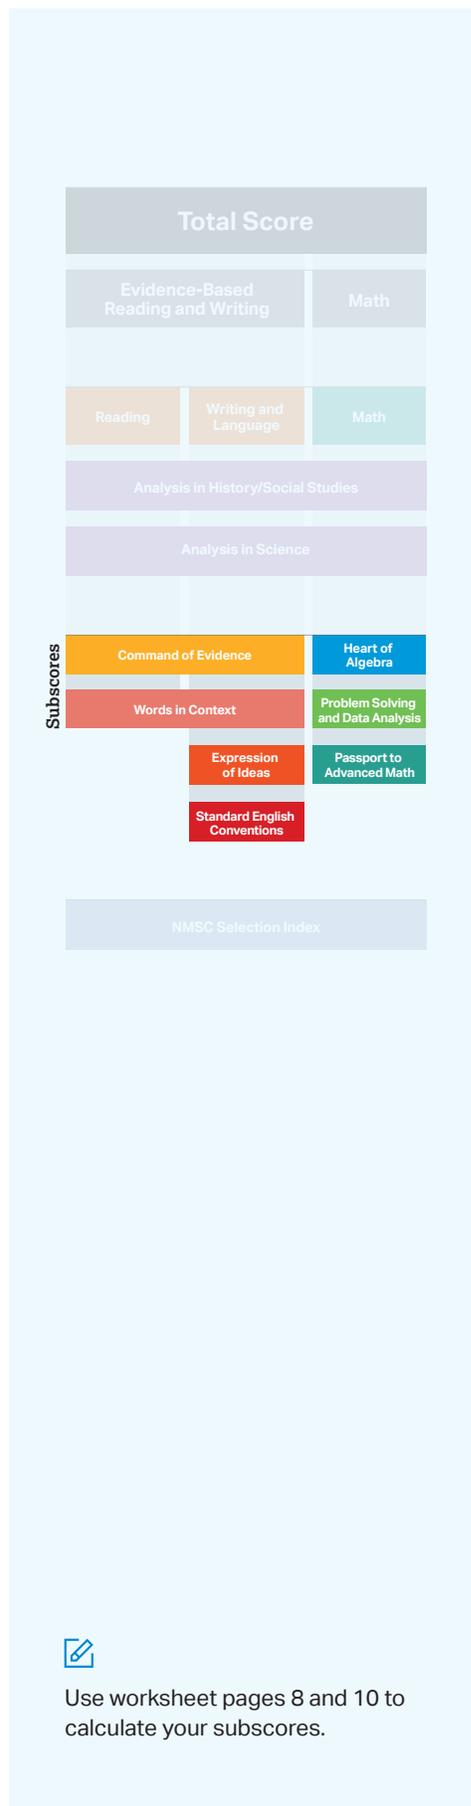

## PASSPORT TO ADVANCED MATH

The Passport to Advanced Math subscore is based on questions from the Math Test that focus on topics central to the ability of students to progress to more advanced mathematics, such as understanding the structure of expressions, reasoning with more complex equations, and interpreting and building functions.

- 1 Add up your total correct answers from the following questions:
  - Math Test – No Calculator: Questions 2; 6; 10-13; 16-17
  - Math Test – Calculator: Questions 4; 18; 25; 28; 30-31

Your raw score is your total correct answers from all of these questions.

- 2 Use Raw Score Conversion Table 2 to determine your Passport to Advanced Math subscore.

Use worksheet pages 8 and 10 to calculate your subscores.

# Get Cross-Test Scores

The PSAT/NMSQT also reports two cross-test scores: Analysis in History/Social Studies and Analysis in Science. These scores are based on questions in the Reading, Writing and Language, and Math Tests that ask students to think analytically about texts and questions in these subject areas. Cross-test scores are reported on a scale of 8–38.

## ANALYSIS IN HISTORY/SOCIAL STUDIES

- 1 Add up your total correct answers from the following questions:
  - Reading Test: Questions 10-19; 29-37
  - Writing and Language Test: Questions 25; 27-28; 30; 32-33
  - Math Test – No Calculator: Questions 7-8
  - Math Test – Calculator: Questions 1; 13-16

Your raw score is your total correct answers from all of these questions.

- 2 Use Raw Score Conversion Table 3: Cross-Test Scores on page 11 to determine your Analysis in History/Social Studies cross-test score.

## ANALYSIS IN SCIENCE

- 1 Add up your total correct answers from the following questions:
  - Reading Test: Questions 20-28; 38-47
  - Writing and Language Test: Questions 15-19; 22
  - Math Test – No Calculator: No questions
  - Math Test – Calculator: Questions 17; 19; 22-24; 30; 31

Your raw score is your total correct answers from all of these questions.

- 2 Use Raw Score Conversion Table 3 to determine your Analysis in Science cross-test score.

**Cross-test scores are based on questions in the Reading, Writing and Language, and Math Tests. They show how you think analytically about text and questions in history/social studies and science contexts.**

 Use worksheet pages 8 and 11 to calculate your cross-test scores.

# Get Selection Index Score

To calculate your Selection Index score, double the sum of your Reading, Writing and Language, and Math Test scores. Here's how:

- 1 Follow the instructions on page 3 to get your Reading, Writing and Language, and Math Test scores. (All of these scores are on a scale of 8–38.)
- 2 Add your Reading Test score, Writing and Language Test score, and Math Test score. Multiply the total test score by two. The result is your Selection Index score. (See Conversion Equation 4: Calculate Your Selection Index Score on page 12.)

Total Score		
Evidence-Based Reading and Writing		Math
Reading	Writing and Language	Math
Analysis in History/Social Studies		
Analysis in Science		
Command of Evidence		Heart of Algebra
Words in Context		Problem Solving and Data Analysis
Expression of Ideas		Passport to Advanced Math
Standard English Conventions		
NMSC Selection Index		

**The NMSC Selection Index score is based on questions in the Reading, Writing and Language, and Math Tests. The Selection Index score is used by National Merit Scholarship Corporation as an initial screen of students who enter the National Merit Scholarship Program.**

 Use worksheet pages 8, 9, and 12 to calculate your Selection Index score.
